

Building Permit Application - City of Greensburg

CONTENT OF BUILDING PLAN

Required plan information shall be as follows (unless certain items are waived by the Building Inspector):

1. All plans shall be drawn to scale. The preferred scale is an architectural drafting scale of $\frac{1}{4}$ inch.
2. A title block shall be placed on the plan and shall contain the plan name, the name and address of the developer and the development address.
3. The building use and the total square feet contained in the building shall be noted.
4. A footprint of the building showing the building size, all exterior walls, interior space layout, egress doors and the distance to the nearest property line.
5. The use of each separate room and/or area.
6. A wall detail, which shall include a cross-section indicating the thickness, insulation, materials, and interior/exterior treatments.
7. A roof detail, which shall include a cross-section indicating depth and size.
8. A foundation and footer detail which shall include a cross-section indicating depth and size.
9. A basement detail shall include the elevation of the basement and the amount of basement that will be showing above ground level.
10. Location and type of heating system.
11. Location of plumbing and service entrance.
12. Any other relevant information such as stair details, sprinkler information, handicapped requirements and window detail.
13. A copy of workman's comp insurance policy or signed affidavit of no employees.
14. A copy of general liability insurance policy.
15. The permit application must be filled out completely or the permit cannot be issued.

Inspection Requirements

After the issuance of paperwork, and work has started on the project, the Building Inspector will conduct three inspections during construction. A twenty-four (24) hour notice to schedule the required inspection is requested.

1. **Footers** should be clean and of the appropriate size. Steel reinforcement bars (rebar) should be tied together and in place at the time of the inspection.

2. The **Rough Frame Inspections** is to be performed after the electrical and plumbing have been roughed in and inspected and before the insulation is installed. This inspection should be prior to the installation of any interior finished, (drywall, etc.)

3. A **Final Inspection** is required **PRIOR TO** occupancy. All work should be completed and all electrical, gas and plumbing inspections should be completed. Once the final inspection has been performed and the building is certified as in compliance with all applicable codes a Certificate of Occupancy may be issued.
